AADAC corporate business plan Alberta youth and child services Developed website

HelpSpot to Unfuddle API integration

I created an API Push to submit bugs directly to Unfuddle from HelpSpot using cURL and PHP.

Addressbook

PHP Addressbook has had over 5500+ Downloads; its main purpose is to allow management of your personal contacts online. Users have expressed the desire for multiple users with various permissions

Spoke Calculator Light & Pro

PHP Spoke Calculator allows the user to quickly and easily perform calculations relevant to bicycle mechanics.

PHP Installer

PHP installer is a script which allows developers of PHP applications to easily provide an installation script which populates a database with "seed data" and creates a configuration file.

PicLens for Zenphoto and PixelPost

A plug-in for Zenphoto that allows PicLens (a browser plug-in) to interact using RSS.
